

BURLINGTON-GRAHAM METROPOLITAN PLANNING ORGANIZATION

2020-2029 Transportation Improvement Program As Amended December 2020

RESOLUTION

BURLINGTON - GRAHAM URBAN AREA METROPOLITAN PLANNING ORGANIZATION ADOPTION OF THE METROPOLITAN TRANSPORTATION IMPROVEMENT PROGRAM (TIP) FOR FY 2020 – 2029

The motion to approve the following resolution was offered by _______ and seconded by _______ and upon being put to a vote was duly adopted.

- WHEREAS, the Burlington Graham Metropolitan Planning Organization (BGMPO) Transportation Advisory Committee (TAC) has found that the Metropolitan Planning Organization is conducting transportation planning in a continuous, cooperative, and comprehensive manner; and
- WHEREAS, the Metropolitan Transportation Improvement Program (TIP) is a staged multiple year listing of all federally funded transportation projects scheduled for implementation within the Burlington – Graham Urban Area which have been selected from a priority list of projects, and
- WHEREAS, the document provides the mechanism for official endorsement of the program of projects by the TAC; and
- WHEREAS, projects listed in the TIP are also included in the North Carolina Department of Transportation (NCDOT) State Transportation Improvement Program (STIP) and balanced against anticipated revenues and identified in the STIP; and
- WHEREAS, NCDOT has demonstrated fiscal constraint in the 2020 2029 STIP adopted on December 4, 2020 and the BGMPO TIP is a subset of the STIP and by extension therefore demonstrates fiscal constraint; and
- WHEREAS, the TIP shall include, to the maximum extent practicable, a description of the anticipated effect of the TIP toward achieving the performance targets identified in the metropolitan transportation plan, linking investment priorities to those performance targets; and
- WHEREAS, the BGMPO Metropolitan Transportation Plan has a Planning Horizon year of 2045, and meets all the requirements in 23 CFR 450;

NOW THEREFORE, be it resolved by the Burlington – Graham Metropolitan Planning Organization Transportation Advisory Committee that the Metropolitan Transportation Improvement Program for FY 2020 – 2029 be adopted by the Burlington – Graham Urban Area Metropolitan Planning Organization on this the <u>day of</u>, 2021.

CERTIFICATE : The undersigned certifies that the foreg	going is a true and correct copy of a resolution
adopted by the voting members of the BGMPO TAC on_	;

Burlington – Graham Metropolitan Planning Organization (BGMPO)

The Burlington-Graham area was designated an "Urbanized Area" by the U.S. Bureau of Census in 1974. As a result of this designation, the Burlington-Alamance area formed the Burlington Graham Metropolitan Planning Organization (BGMPO) in 1975. MPOs represent areas greater than 50,000 in population, and North Carolina has 19 MPOs throughout the state. With this new designation came the responsibility of adhering to federal continuing planning requirements. Furthermore, a Memorandum of Understanding (MOU) was executed between the Cities of Burlington, Graham, and Mebane; the Towns of Elon, Gibsonville, Whitsett, Green Level and Haw River; the Village of Alamance; Guilford County, Orange County and Alamance County; and the North Carolina Department of Transportation (NCDOT) in 2012. The memorandum delineated responsibilities in maintaining and continuing planning process and established a Technical Coordinating Committee (TCC) with the responsibility for general review, guidance, and coordination of the continuing planning process. A Transportation Advisory Committee (TAC), comprised of representatives of the elected policy boards in the urban area, was also established to assure coordination between the elected officials, policy boards and the transportation planning process.

2020-2029 State Transportation Improvement Program

The N.C. Board of Transportation adopted the 2020-2029 State Transportation Improvement Program (STIP), December 2020. The STIP identifies transportation projects that will receive funding developed under the 2013 Strategic Transportation Investments (STI) law.

Work on the 2020-2029 State Transportation Improvement Program began in April 2018, when the N.C. Department of Transportation released data for over 2,100 projects for highway and non-highway modes (aviation, rail, bicycle and pedestrian, ferry and public transportation) across North Carolina. Projects scheduled in the first six years of the plan are considered committed and are not re-evaluated when a new plan is developed. Projects in the final four years of each plan are prioritized again based on technical data, as well as input from local officials and residents. These projects were scored through the data-driven scoring approach called Strategic Prioritization. Division engineers, along with metropolitan and rural planning organizations, collected public input and ranked potential projects, as required by the STI.

After the release of the Draft STIP in January 2019, NCDOT hosted regional information sessions in the spring to gather public input on the process that produced the Draft STIP. Feedback was also collected online. In August 2019, NCDOT released the final draft of the 2020-2029 STIP, which included both new projects and schedule adjustments. More than 1,700 projects are included in the N.C. Department of Transportation's 2020-2029 State Transportation Improvement Plan, or STIP; 1,319 highway projects, 86 aviation, 234 bicycle and pedestrian, 6 ferry, 23 public transit, and 50 rail projects were funded at the statewide, regional and division levels. NCDOT then accepted further public comment, before the NC Board of Transportation and the Federal Highway Administration approved the draft STIP in September 2019. The September 2019 STIP pended federal approval and received final approval, March 2020. In light of the COVID-19 pandemic and resulting impact on revenues, the passage of House Bill 77 into law, and project cost increases occurring over the past year, NCDOT conducted a reprogramming exercise to ensure the STIP remains fiscally constrained, August 2020.

2020 – 2029 Metropolitan Transportation Improvement Program

The Metropolitan Transportation Improvement Program (TIP) is based on federal requirements established and documented in the Code of Federal Regulations, Title 23. The primary goal of the federal requirements is to ensure that tax dollars are spent on useful, meaningful projects that are supported by the residents/taxpayers of the Burlington- Graham Urban Area (BGUA). The TIP is a subset of the STIP and lists regional transportation project schedules and estimated project costs. The MPO's adoption of the TIP typically follows the NCDOT Board of Transportation adoption of the STIP.

The BGMPO is responsible for maintaining a long-range Metropolitan Transportation Plan (MTP) for the MPO planning area. The MTP outlines the BGMPO's transportation-related goals and objectives and addresses transportation related issues and impacts over a minimum 20-year horizon. The TIP is the "short-range" component of the BGMPO's 2045 Metropolitan Transportation Plan (MTP). As NCDOT has demonstrated fiscal constraint in the 2020-2029 STIP adopted on December 4, 2020, the TIP is a subset of the STIP and by extension demonstrates fiscal constraint. The development of the TIP is a continuous process and is updated every two to three years to provide a platform for sharing updated information and to ensure compliance with federal regulations and established air quality requirements. Development of the TIP is conducted in accordance with the BGMPO Public Involvement Plan and adoption and associated actions are taken during an advertised public meeting with opportunity for public comment.
