INFORMATION: The BGMPO Transportation Improvement Program (TIP) and 2050 Metropolitan Transportation Plan (MTP) consist of projects that are included in the NCDOT 2026-2035 State Transportation Improvement Program (STIP). This planning effort will identify key areas for walking and bicycling improvements and produce project cut sheets to support future funding requests. The plan and its deliverables will help the Village pursue projects that improve safety and access for people who travel without using vehicles. NCDOT requires a resolution in support of their application.

RECOMMENDATION/ACTION: 1) Receive information and discuss; 2) Approve the grant support resolution for the Village of Alamance's application.

FY27 Unified Planning Work Program (UPWP)

Mr. De Jesus presented the FY27 Unified Planning Work Program (UPWP). He mentioned UPWP is a federally required document that outlines all major transportation planning and related activities within the BGMPO planning area for the upcoming fiscal year (July 1, 2026 – June 30, 2027). While most tasks are intended for completion within the fiscal year, some projects may extend into future years. UPWP activities are funded through federal PL104 planning grant from the Federal Highway Administration (FHWA) administered NCDOT, and Section 5303 and 5307 transit planning funds from the Federal Transit Administration (FTA). The BGMPO is required to certify their transportation planning processes on an annual basis as part of the UPWP approval process. He also mentioned that there may be amendment in the future if special studies are incorporated in it. He also mentioned that BGMPO is the first in the state to do safety plan and there will be an update in the plan. Eliud asked TAC to approve the planning process and the UPWP. Ricky Hall made the motion to approve both the items, and they were seconded by Dejuana Bigelow. It was approved by unanimous voice vote.

BGMPO Draft P8.0 Local Input Points Methodology approval and STI P8.0 Updates

Mr. Eliud De Jesus explained that the Strategic Transportation Investments (STI) Act requires each MPO to develop and adopt a local project ranking process for all modes of transportation. Under STI, all modes of transportation compete internally and are evaluated against statewide, divisional, and regional criteria. Statewide projects are 100% data-driven and exempt from the local project rankings. Regional (NC & US highway routes) and Division (all other state facilities, etc.) projects are included in the local evaluation

process. NCDOT requires MPOs to develop and adopt processes for SPOT project rankings and assignment of Local Input Points. Mr. Eliud also explained that the local input scoring carries 50 percent in Division needs and 30 percent in the Regional need. Ricky Hall made a motion to approve and seconded by Bryant Crisp. It was approved by unanimous voice vote.
